

**1**

Prepare your image or artwork.  
Print and cut your image using **solvent** or **eco-solvent** inks only (a TTRH profile is recommended)

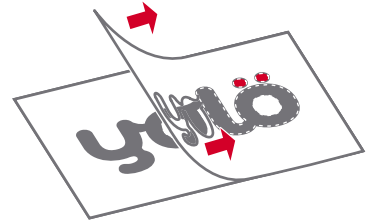

**2**

Leave the image for up to 6 hours to allow the ink to dry (time is dependent on ink and ambient conditions)

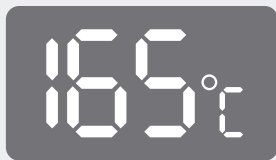

**3**

Weed away the unwanted film (a weeding tool may help)

**4**

Prepare the heat press at **165°C / 330°F**

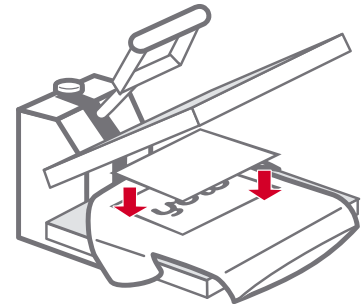

**5**

Using application tape/mask, place image face up on substrate

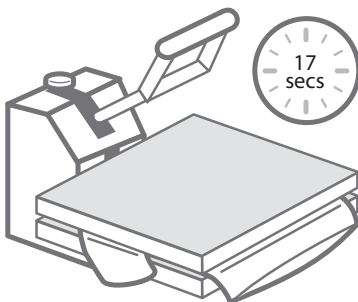

**6**

Cover with a Teflon or silicone sheet

**7**

Apply **medium** to **heavy** pressure for **17 seconds**

**8**

Peel when warm\*

24hrs before washing

\*After approximately 10 seconds

### yolo tip

Repress for 5-7 seconds with a Teflon or silicone sheet to increase durability and achieve greater washing-fastness

## wash and care instructions

Machine wash separately

Dry at low heat setting

Do not bleach or directly iron image
